

NALC and MDA go Bowling for Dollars

Thousands of letter carriers, along with friends and family, filled bowling alleys nationwide on Sunday, Nov. 7 for the second annual NALC bowlathon for MDA.

“It’s great to see letter carriers help cure muscular dystrophy on their day off, especially when they have fun doing it,” NALC President Fredric Rolando said. The bowlathon raised thousands of dollars in a single day for the Muscular Dystrophy Association, the union’s official charity.

Eight national resident officers, staff members from Headquarters and the Health Benefit Plan and family bowled on Nov. 7, raising a total of \$8,025. The hundreds of branches that bowled for MDA that day are still collecting their pledges and reporting the amount they raised. The amounts raised by each branch and the national tally will be included in the January issue of *The Postal Record*.

“Our second annual bowlathon is sure to be a huge success,” said Jim Williams, NALC’s MDA coordinator. “Letter carriers across the country were very enthusiastic about this event, and I think they will top last year’s fundraising mark.” ☒
