

## Contributions from specific inspirations

**W**hen COLCPE was first created in 1975, every contribution to the fund was what we would now consider “occasional,” a personal check often coming in response to a specific legislative threat or an appeal from NALC’s leaders.

Today, financial transactions are more often executed by the push of a button or the click of a computer mouse. But plenty of our brother and sister letter carriers still find the motivation to pull out their checkbooks and send a donation to COLCPE—when they attend a political event and experience the energy of letter carriers rallying around a cause, or when they read about the Postal Service’s

latest misguided strategy, or some congressional ploy to save a few pennies by putting the squeeze on our retirees.

These generous contributions are just as important as the automatic ones highlighted on the preceding pages in helping us fortify our political action fund.

This section lists active and retired NALC members whose one-time or multiple but irregular donations were recorded during 2009. If you gave more than once, all your donations have been combined into a single total.

As in the earlier section, listings are first alphabetical by state, then numerical by branch number within each state, and then alphabetical by member’s last name within each branch.

\* This list includes donors whose contributions were recorded without enough information to establish their identity fully. An example would be a money order accompanied by a name but no hometown or branch number. Another could be the use of a nickname not recorded in NALC's computer database, or a name that is shared by more than one member. Some may be Auxiliary members who did not identify themselves as such, or other supporters who failed to make their status clear.
