Whole life insurance

There are many benefits to a whole life insurance policy: Coverage lasts the lifetime of the insured individual, the premiums never increase and the policy builds a cash value that the policy owner may borrow against in times of financial need.

With a traditional whole life insurance policy, the premiums are paid for the entire life of the insured person. The Mutual Benefit Association (MBA) does offer a traditional whole life product.

However, many people do not like the idea of paying premiums on a life insurance policy for their entire lifetime. Letter carriers asked the MBA to offer a whole-life insurance policy with a limited premium payment period. In response to this request, MBA offers two policies: Paid Up in 20 Years MBA Whole Life Insurance, and Paid Up at Age 65 MBA Whole Life Insurance.

MBA whole life plans are available to NALC members and their spouses, children, step-children, grandchildren, step-grandchildren, great-grandchildren and step-great-grandchildren, as well as members’ parents. MBA will insure any one life up to the coverage amount of $100,000. The difference between the plans is the age at which the policies may be issued: For a Paid Up in 20 Years policy, it is ages 0 to 80; for Paid Up at Age 65, ages 0 to 55.

The best part about these plans is that the premiums remain the same for the premium payment period. At the plans’ designated time, the policy is paid in full. The Paid Up in 20 Year policy is fully paid off 20 years after the issue date of the policy. The Paid Up at Age 65 policy is fully paid off on the policy anniversary date after the insured turns 65 years old. At that time, no further premiums are ever due on these policies. The coverage remains in force for the insured’s entire lifetime. The premium is determined by the insured’s age at the time the policy is purchased, and the amount of life insurance requested.

Premiums on either plan may be paid to the MBA through biweekly payroll deduction, through electronic funds transfer (EFT) or directly to the MBA office on an annual or monthly basis.

All of our whole life policies are “participating plans of insurance.” This means that the policy owner will share in any divisible surplus of the MBA. The divisible surplus is called a dividend on the policy and is credited to the policy on each anniversary date. Policy owners have options on how they may receive the dividends: cash dividends (receiving a check each year on the policy anniversary date); dividends on deposit (dividends remain with the MBA and earn interest); and Life Paid-Up additions (dividends are used to purchase additional life insurance for the insured). Each year, policy owners who opt for the latter two options are provided with a statement indicating that the dividends on deposit or the Paid-Up Additional Life Insurance amount.

Our whole life plans provide policy owners with benefits that may not be available with other life insurance products. For example, if a policy owner is unable to continue to pay the required premiums prior to the policy becoming fully paid, options are available to avoid losing coverage, including automatic premium loans or the non-forfeiture options of extended term insurance or reduced paid-up insurance.
